

# CORE-LUBE™

**CORE-LUBE natural, linseed-based soft soap is used as a core barrel lubricant on diamond core drills.**

## Functions

- Allows for easy sliding of the core into the inner tube.
- Lubricates the core lifter.
- Minimizes wear on the inner tube.
- Formulates a non-polluting water-based solution for cleaning inner tube components and rig equipment.

## Advantages

- Helps improve core recovery. Helps extend length of core run in broken ground.
- Can lengthen useable life of downhole wireline components.

### As aid in core recovery

A handful or saturated swab of CORE-LUBE lubricant may be smeared inside the bottom of the inner tube before it is inserted into the drill rods. Also, a liberal amount may be applied to the core lifter parts.

### As a cleaning solution for drill rig components

Mix 5 litres of CORE-LUBE lubricant per m<sup>3</sup> of water.
